Professional Experience

- SAIL Innovation Lab Ikorodu, Lagos
- Front-End Developer 2021-2024
 - Designed and implemented responsive and user-friendly web interfaces using HTML5, CSS3, and JavaScript.
 - Developed dynamic web applications with frameworks such as React.js.
 - Collaborated with UI/UX designers to ensure alignment between user interface designs and technical implementation.
 - Optimized website performance, achieving faster load times and enhanced user experience by 2X faster.
 - Utilized version control systems for efficient collaboration and code management.
- Junior Front-End Developer
 - Assisted in the creation of reusable components and modules using modern front-end frameworks.
 - Debugged and resolved front-end issues, improving functionality and user experience.
 - Translated wireframes and prototypes into fully functional web pages.
 - Maintained and updated existing websites to enhance performance and design.

Freelance Front-End Developer

- Built visually appealing and responsive websites for clients across various industries.
- Integrated APIs and third-party services to extend website functionality.
- Provided maintenance and updates to ensure websites remained secure and functional.
- Created tailored solutions for clients, including e-commerce stores, blogs, and portfolio websites.
- Conducted client consultations to gather requirements and deliver user-centric designs.

Open Source Contributor

- Contributed to front-end features and bug fixes in open-source projects, improving functionality and usability.
- Collaborated with other developers on GitHub to enhance open-source tools and libraries.
- Gained hands-on experience with version control and peer-reviewed workflows.
